Being a passionate people-person with over 10 years of experience as a professional dancer and in the hospitality industry; bringing tech and communities together is a dedication of mine. After a year and a half sabbatical, wire jewelry making and briefly attending Dev Bootcamp, I attended and graduated from Epicodus' 6 month program building web applications from scratch. Coding over a year and finishing my internship I am enthusiastic to bring my fullstack skills to your team/company.

Projects

Generator (*Angular 5, Angular CLI, JavaScript, ES6 & ES7, Jasmine, Protractor, Nerdemer and Guppy math Libraries*)
ChalkDoc internship working on an open source app given teachers the control to make customized, compelling assignments for their students.
