Skills

Ruby/Rails

HTML

CSS

Javascript

JQuery

SQL

Angular 2

Technology is no longer only for computer science majors and mathematicians but our everyday life. Being a passionate people-person with over 10 years of experience as a professional dancer and in the hospitality industry; bringing tech and communities together is a dedication of mines. After a year and a half sabbatical, wire jewelry making and briefly attending Dev Bootcamp, I attended and recently graduated from Epicodus. I spent six months coding over 1000 hours and built web applications from scratch. I am a creative individual and am enthusiastic to bring my backend development skills to your team/company.

Education

2017-08 - 2018-02

Epicodus
- lead by example/influence and deliver ideas compellingly
- singled-handedly built a web application that helps dancers find jobs in Seattle and engage in the dance community
- created an interactive learning tool that allows children the ability to create a personalized approach to learning
- initiated a communication tool that streamlined information sharing and event planning for the class

2016-09 - 2017-05

Dev Bootcamp
- Increased my knowledge in Practical Object Oriented Design in Ruby and algorithms
- Coached relieving stress techniques to peers
- Actively participated in Engineer Empathy lectures

Projects

Epic-Goose (Group Project); HTML, CSS, Javascript, Bootstrap
Conceptualized and served as team lead on a choose your own journey story application following the story of "Goblin Market".
Live site: https://elreyb.github.io/epic-goose/, Github: https://github.com/ElreyB/epic-goose

Word Definer; Ruby Rspec, Sinatra, Heroku, Pry, Capybara, JavaScript
A personal interactive dictionary for kids making learning fun. Live Site: https://glacial-meadow-45856.herokuapp.com/, GIthub:https://github.com/ElreyB/word-definer

Dance Network; Angular 2, HTML, CSS, Node, JavaScript, Bootstrap
Network application for dance to learn about Seattle based dance companies. Live Site: https://dance-network.firebaseapp.com/, Github: https://github.com/ElreyB/dance-network

Experience

2018-01 - 2018-02

Intern
ChalkDoc
- Identify and addressed tech debt
- Organized daily goals
- Refactored existing code base using higher order functions & reduced total source lines of code by 60%
- Ensured consistent and thorough documentation

2005-09 - 2015-11

Manager, Host, Event Planner
Hospitality Industry
- Full cycled event planning for parties up to 100 people
- Comfortable working with high-end clienteles, including celebrities and corporations
- Solidified relationships with repeat clients to deliver their party vision to reality
- Single-handedly created host manuals and trainings for four [high end] restaurants

2002-04 - 2015-10

Dancer, Choreographer
Dance Companies In Philadelphia and Seattle Area
- Established a large network in the dance community
- Participated in several dance companies that exchanged dance concepts with international companies
- Lead classes in modern dance and yoga for local communities
